Loved it!

By Happygirlcb

I enjoyed this book...my husband and I BOTH answered the questions by writing down our answers and then comparing. I found it very insightful, and we both enjoyed the process. We would just do 2-3 each night after we got home from work...and we both looked forward to reading our partners response. We were able to answer fully and completely, and without being interrupted or having our answers challenged. It was a great exercise for both of us.

Very little in the way of insight

By A Customer

I picked up this book, hoping to find questions that would truly help me get to know my partner better. Instead what I found were a lot of short generalizations, blithe answers, and questions I couldn't care less about. The sealed pages at the back (that contain the answers) are annoying and unwieldy. Finally, Ms. Corn (or her editors) should invest in a proofreader. There are so many mistakes all over this book, I felt like asking for my money back! You're much better off with "The Book of Questions" by Gregory Stock, or any of the other "question"-type books out there. Don't waste your money on this one.

237 Intimate Questions Every Woman Should Ask a Man

By A Customer

When I first chose this book, I intended to find just questions that apply for men. However, I was pleasantly surprised to find that most of the questions can apply to both sexes. I have used this book for intimate get-togethers with close friends, as a tool to get to know more about the people you know best. This book is great for those beginning a relationship or those who have been in a relationship who would still like to know their partner on another level. I would recommend it!
