New life here I come

By jeanneserenity

I recently saw Tony Robbins at a benefit in San Diego. He talked for about two hours and changed my life. By the end of the two hours he had reminded me that life is about what you put into it. He taught us all how to recognize the relationship between the physical state of your being and the emotional. I started this program last week with the Hour of Power. I walk every morning and listen and follow this great daily empowerment. This alone is worth the reasonable price I got from an ebay seller. If you really put yourself in a place where you can listen and learn from him you won't be disappointed. Open your mind and let Tony teach you a thing or two.

Fun and High-Energy (...if a little shallow and unfulfilling)

By DonAthos

Anthony Robbins is a very inspirational speaker. Just listening to him in the mornings does, I believe, get me more excited about the day to come, and the more excited I am, the more I can get done.

There's a lot to recommend about Anthony Robbins.

On the other hand, this particular product--Get the Edge--is a slight letdown. He concentrates too much on anecdotes, and pulls material from his workshops (usually anecdotes, too), and jumps from topic to topic instead of really going in depth. For instance, one CD is relationships, the next is health and fitness and the one after that is finance. Personal Power II is a more extensive, in-depth presentation, and if you're new to Anthony Robbins I suggest getting that over this. (They cost just about the same.)

About Robbins' using these CDs to sell his other courses and seminars, etc., I have to say: I don't doubt that he'd like to sell his other stuff, but I really do believe he's genuine and sincere in his efforts, here. He mentions his other products from time to time, but does not pitch them directly. If it is a sell (and of course it is), it's a very soft sell.

In short, Robbins is exciting and fun to listen to. This set has value just because of that. However, because he covers a wide range of topics, and covers them quickly and mostly anecdotally, this particular set leaves something to be desired. His other line, Personal Power II, is more in-depth and therefore, in my opinion, is a better overall value.

A new follower of Robbins!

By GC

As someone who never listened to any of Robbins earlier work, I am impressed, the only catch is that it requires you to do some work too!

He demonstrates a great scientific knowledge relating to food and health, most of which you can easily check through a google search.

A lot of his knowledge can be called old timey common sense, 40 years ago if you were constantly getting sick, and a person who never exercised and just ate tons of junk food, the doctor wouldnt just create some new dysfunction to diagnose you, he'd say "LOOK, you fool, you are causing yourself harm (lack of exercise and diet)!" Robbins will do that!

It requires an actual commitment but I think this will make you feel better in your real life! IT IS AN EDGE!
