BACK TO THE TOP (ROSS RECORDS SERIES BOOK 3) BY JL PAUL PDF

So much has changed since graduation...

For Isabella Ames, life was supposed to start after high school; college, career, and living the rest of her life with Jake Johnson.

But life always seems to throw a curve...

Isabella's new life is not what she expected, but she's adjusting well. She has a job that she loves and is engaged to a wonderful man.

But she finds herself face-to-face with Jake again, after three years and several heartaches. Although they have both moved forward, the connection that binds them hasn't weakened in the least. Now Isabella is struggling to fight her attraction for the only man she's ever really loved while trying to do what she thinks is best.

Enter more paparazzi, family issues, and a new generation and things get crazier.

Will Isabella find her way back to Jake or is she fated to this new life?

Loved it!

By Keli Chasteen Wright

This book was a great addition and long awaited sequel to the Ross Records series! Thank you JL Paul for creating romantic books without all the dirty talk. Its refreshing to be able to read a love story without all the smutt! For those out there that are looking to follow up to Phone Calls from a Rock Star and felt like the story needed more- this is the book! I am hoping there is another book for ROSS Records in the future that could possibly include a Cammy/Nick romance! Thanks for a great read!~

Time Warp

By Dorothy

Well this was an interesting walk back in time. Welcome to a faraway place where technology has not penetrated the boundaries of fiction. Many plot points in this novel would logically be solved with two minutes and an internet connection. This author has lost touch with what's happening in the New Adult world in 2013.

My biggest regret about this story is the train-wreck that Isabella has become. When the book begins, she has made a series of bad decisions -- dropping out of college, allowing a new older control freak boyfriend to lease her a car, rent her an apartment (she gives him a key), and use his influence to place her in a job. He

takes her to dinners with people forty years older than she is. She has no money. Her parents also are ruined. She never asks them or anyone for advice and she ignores her friends' remarks. You would think: at least she has her integrity. But you would be mistaken -- she is too spineless to cut bait from the bad fiancé, before she starts fresh with the boy she loves. At one point, I wondered: what about her job? Why is she not going to work? It turns out that she has resigned with no notice, with no loyalty to the business that trained her, gave her a start (with no diploma), and relied on her. There goes that job reference.

Modern women know about having a credit rating, using it to buy a car and to rent an apartment. Modern women know: if the funds for tuition dry up suddenly, you go to the student financial aid office and find a solution to finish the degree. A woman in 2013 googles the older man who asks her out. She looks into past girlfriends. She would consider a man who has no friends highly suspect. She has been trained through health class in high school and modern media that it is not o.k. to allow someone to push her into a wall or put his hand around her neck -- and she is trained in gym class in basic self- defense moves and next steps (you Always call the police, you tell a friend, and you change the lock on the door, or move out immediately). Modern women know: let the man give chase, let him work for the prize. Modern women know: have a career, build an identity and self-respect that's independent of your love life and family. Modern women know: use birth control. (Modern men know: confirm the birth control.). Sigh. Not this young woman. The Isabella we loved, who met challenges and pushed herself in Phone Calls from a Rock Star, has become so limited and defeated as a character, you follow her story with anxiety and pity. This book is not entertainment. The ending (I think the author sees it as happy) is especially bleak.

I read it because I liked the first one.

By Amazon Customer

Vague spoilers

Not as good as the first novel. To be totally honest, I felt like the character development from the first novel wasn't really there. It didn't ring true that Jake's choices between the first and second novel would match the person he seemed to be in the first novel. Even if it did, it also didn't ring true that the heroine would have made the choices regarding Brad in the period between the novels also. Also seems highly unlikely that Heroine would have lost touch with 4 great friends, or that Seth would have stayed out of touch with the band in the interim. Still happy to get closure on the original story.
