Highly recommended!

By Roger Christeck

I saw Nicholas Vesey (rhymes with 'easy') interviewed by Iain McNay on CONSCIOUS TV, and I recommend the presentation to you. In other words, if you watch it and come to find that Nicholas Vesey has something to say to you, well, by all means, buy his book. I certainly recommend 'Developing Consciousness'. /// Below are two of the six 5-star reviews 'Developing Consciousness' has garnered on Amazon UK.

:::::

Although I have read many books on this subject, I love the way that Nicholas Vesey has approached it. He describes the journey of awakening in a very down to earth, practical way using lots of familiar everyday references. In some books, the subject has a kind of mystical, "how do I relate this to myself?" kind of feel, but Nicholas has managed to remove any such barriers and makes it all very accessible and easy to understand. And he also shares numerous personal experiences to illustrate some of the concepts and ideas he is trying to convey. This is an excellent introduction to anyone who is just starting to awaken and a useful, encouraging reminder to those who are already on the path.

:::::

This book is written in a very personal and engaging style which inspires you to reflect on your own journey. I found it highly refreshing in that it approaches the spiritual from the perspective of the ordinary and

everyday yet opens your mind to much greater possibilities. The invitation to experience the divine that lies beyond mind is compelling. I really hope that this book and its message reach a wide audience which is seeking greater meaning in life but simply doesn't know what to do next. This book has helped me to appreciate that I am already in the best place to begin that journey. Fantastic book - I thoroughly recommend it.

Developing Consciousness

By Kristen Ann main

I have been a meditator for over fifty years. I have already read the books Nicholas Vesey lists in the last few pages of this remarkable book. Such honest simplicity is so refreshing. This humble man clearly and gently introduces meditation to everyone. He removes the confusion, mystery, and questions asked by many who have not tried meditation. This book is a rare gift to all of us.
