EASILY ILLUSTRATE YOUR BOOK: CREATE PROFESSIONAL-LOOKING ILLUSTRATIONS...EVEN IF YOU CAN'T DRAW! BY TONY LAIDIG PDF

While working in the Publishing Industry, one of the trends I noticed was that it seemed EVERYONE had a children's book they wanted to publish...it was kind of a running joke. I was even approached on numerous occasions to illustrate them and I refused every time. Why? Because (remember) I couldn't draw to save my life! Over time, I realized that the MAJOR problem in succeeding with children's books ALWAYS came down to the SAME issue...the illustrations!

Every single author I met who wanted to publish a children's book struggled with illustrations!

In "Easily Illustrate Your Book," you will discover the secrets of using photographs together with cutting-edge illustration software to create gorgeous illustrations without having to draw or paint!

It's O.K. But book was written for some type of membership website

By Kimberley

Interesting and the only book on this exact subject matter. However, the book says all too frequently, refer to membership area....and there is no membership area unless you go online and sign up for that for almost 100 dollars. The book was obviously written for those who are members on his site, but here on Amazon you are left in the cold and cannot glean the promised details more fully. Another irritating fact is that he gives url's for certain resources, but they are long and complicated to type in manually and you can't copy and paste...i wish author had of made them clickable links!

Kinda disappointing, but would have been ok with it since the idea is great and no one else seems to have written on the matter from this same angle...not worth the nearly 8 dollars I paid. I am thinking I will get a refund.

Excellent Book

By Marilyn S

I love this book. The author is an illustrator and teacher so he combines his expertise in both fields to instruct the reader in an easy to follow manner. There are plenty of examples and also brief remarks from some of the author's favorite illustrators. Definitely buy this book!
