THE IMMORTALS BOOK 1

By Reader

Ember and Truman first meet when she's ten and he saves her from a monster intent on killing her. Of course she doesn't remember because Truman who is a three hundred year old vampire wipes her memory of his

part in saving her.

Truman over the next ten years pops in and out of Ember's life. Each time he does he allows Ember to remember their past together, but he always clears her memory of him each time he leaves her. When Ember is twenty things change between them, they become much closer physically and emotionally. When Ember is attacked by another vampire intent on revenge against Truman. He is devastated when he tries to restore her memory of him, he fails. The result is that Ember mistrusts him and holds Truman responsible for the major gaps in her memory.

I have read all of this authors books so far, and enjoyed each one. This book is the authors first venture into paranormal romance. I think she did a really good job. What was really good was the characters who are were brilliantly portrayed. Truman and Ember's relationship was not only hot and passionate, but believable on an emotional level as well. I really felt and got the connection between them. This is an exciting read full of action, drama and romance. I look forward to the next book in the series. Each book is a complete story.

I love Elizabeth Finn books...

By cwilhit

...but somehow wasn't in love with this one. I think she's fantastic and that her other three books are worth their weight in gold and I literally put this release date on my calendar and when Amazon didnt publish it fast enough, I went on to another website and bought it up real quick, but I just didn't connect with this one like I did with the others. I am awfully persnickety about paranormal romances and I find that i prefer they have equal parts explanation and plot development. Clarissa Clare's Mortal Instruments comes to mind (I know there isn't any erotica) because she develops the information and background on the shadow hunters and all other underworld creatures in a way that flawlessly flows through her plots. Unfortunately, I just wasn't super impressed with the explanation element and I think the amount that was added effected the plot development more than added to it. I will continue to buy up all (and I mean ALL) of Elizabeth Finn's books because I think she is an excellent writer, I just definitely prefer her real world romance books to her paranormal romances anytime.

This is one HOT & different Paranormal Romance novel

By Jessica

This is one hot book! Wow! I joked with my friend about this book I felt like I was reading Twilight Porn! It is definitely not a YA novel.

Elizabeth Finn is one of my favorite authors and I was really excited to read her paranormal romance novel Immortal Protector (The Immortals #1). I love a good vampire story and Ms. Finn delivered!

Immortal Protector is an interesting story. I loved how different it was considering there are so many vampire books out there. It felt completely new to me and I really enjoyed the story of Truman and Ember and their romance over a number of years.

Ember first meets Truman when she is 10 years-old after Truman saved her from a child predator that had kidnapped her. Truman is a vampire who feeds off child abusers but once he saves young Ember he feels the need to protect her for the rest of her life. He watches her from afar to protect her without her ever knowing. He saves her again at 17, then 20 when her mother dies but this time their romance begins. Truman must erase her memory each time she sees him because she cannot know about him and their history. Now Ember is 22 and Truman cannot stay away, he loves her too much and they begin to have a summer time affair but Truman's bloodline (his Vampire family) wants him away from Ember and focus on his family's obligations.

He must protect Ember from his family even if that means he can no longer be with the women he loves.

I absolutely loved the first half of the book. I loved the unique relationship between Truman and Ember and how they came to know each other. Truman was a bit of a stalker but he loved Ember so much and had a connection to her like he has never had on anyone before. I also found Truman to be incredibly sexy, I've never been a fan of vampire boys but Truman is one hell of a vampire man!

Ember and Truman have the hottest sex I have ever read in a book! Wow!! I was seriously blushing while reading their love scenes. The majority of the book is sex, I do wish there was more of a story because it seemed like the love scenes took over the book. I enjoyed the story a lot and just wanted more.

The second half is really good as well; it focuses more on the drama between the vampires and the bloodlines. I did enjoy it as well but I really loved getting to know Ember & Truman in the first half of the book. I couldn't put the book down, maybe because it was the scenes were so hot, or because I enjoyed the story, or maybe it was because Truman turned me on so much but I just couldn't stop reading. Immortal Protector is a great ADULT, EROTIC Paranormal Romance novel.

I give Immortal Protector (The Immortals #1) 4 Stars.
