Mixed feelings

By Diana

(Edited) To me, buying this book was a no-brainer. If it was written by Laura, I'd have to get it. I got it but Laura's personality was not shining through the book. It's not a bad book, but there is nothing ground

breaking. I mean, another red velvet cupcake recipe? I was hoping for originality... Something that would scream "Laura". The biggest downside I feel was not including her best youtube videos. It looks like she assumed people will be more interested in exclusive material.

I was really disappointed that a lot of recipes do not come with photos. It's hard to imagine the end product. I also wish the measurements came in both, cups and grams. I had trouble measuring some recipes.

Easy to follow for everyone

By Denise

I have been a big fan of Laura's youtube for years. When I found out she had a cookbook, I had to preorder. Laura's recipe book is easy to follow whether you are a pro in the kitchen or just starting. This book includes pantry basics, quick-fit suppers, leisurely entrees, salads and sides, dressers, breakfast and brunches and cookie jar. So far I have been able to recreate one recipe which came out perfect. I love Laura's video and TV show because she makes her recipes so easy to follow just like she did for her cookbook.
