Best series in a long time, need the next book now!!

By Amazon Customer

I was offered this book in exchange for an honest review. Although the app I needed wasn't working for some reason so I ended up paying 99cents.

First of all I need to say I could not wait for this book to be done. I needed to know what happened with the characters and how their lives went on and were changed after the death of Seth. But as soon as I started reading I have to say the first third of the book did not hold my interest. I actually started skimming thru it. I prefer books that have more dialogue but this was not just no dialogue. It was needless information I thought and nothing was happening. But nevertheless I kept on because I knew it had to get better after reading the other books. And it did not disappoint!!

Halfway thru the book it got interesting. With Sasha being who she is caused all kinds of problems. And Krissa had shut herself out after killing Seth. I felt so sorry for her. And I was kept wondering if she was going to lose Owen for good. I found myself getting so mad at Krissa for not just telling Owen everything, after all he knows everything else. But I feel like things there will work out but I'm team fox and have been from the beginning. So I can't help but wish fox would win. Lol yea I know.

Anyway, the book was written very well. And after the first part of it, I couldn't put it down. I read it in one day. I had to know what was going to happen next. And before I was ready it was over. And what a cliffhanger!! I'm so mad right now!! Krissa is the best friend ever. Taking the dark influence like that. Will her friends be able to help her?? Idk...I need the next book now!!!

I want to finish by saying THANK YOU Madeline Freeman. You wrote one of the best series I've read in a long time. The first I've read of your books and I'm hooked. You are a great writer and storyteller. Now hurry up with the next book!! :)

Part 4 to a gripping series

By Mrs W.

I was given this book by Madeline Freeman to read as part of her ARC in return for an honest review, which I am happy to give.

Once again Madeline has written each chapter dedicated to the viewpoint of individual characters which gives the reader a unique insight into that character's own thoughts and feelings. I really like this writing style as it pulls you in and makes you feel like you're part of the story.

I love that Madeline draws you into the way that each character sees themselves and thinks - at times it makes you want to hug them and at others to scream at them to wake up and see themselves the way others do. Sasha is the new "love to hate" character in the book and you just want to be able to tell the other characters to watch their backs as she's out for revenge but they just can't see it!

All in all yet another excellent instalment of the Clearwater Witches series and I can't wait for book 5 - get those keys tapping Madeline :-)
