PODIUM FINISH BY BETH POND PDF

With six months until the Olympic Games, seventeen-year-old Harper's life is pretty much perfect. She's fighting for the starting spot on Team USA Women's Hockey, and for the first time ever, she has a crush on a guy who likes her back. She feels like the luckiest girl in the world, until she runs a risky play at practice and breaks her knee, thereby sentencing herself to six weeks in a cast and possibly ending her Olympic dream before it even starts.

For seventeen-year-old Alex, being anything less than the best is unacceptable. That's why, after a miserable debut season at the senior level, the former junior national singles champion switches to ice dance. Her skating partner, Ace, is an "all skating all the time" type of guy, which would be fine, if he'd stop keeping secrets about the real reason he and his former partner broke up. Now is not the time for second thoughts, but how can Alex skate her best if she can't trust her partner...or herself?

As the pressure to make the Olympic team builds, the girls must rely on each other, because if there's one thing they both know, it's that the only thing harder than skating to the top is staying there.

Two Stories in One

By lilacqueen75

I'm not a big sports fanatic. I watch a little here and there, especially if my kids are playing, but one thing that I absolutely love and spend hours and hours and hours watching, is the Olympics. I get into all of the sports and come to know the athletes. I watch sports that I would never watch otherwise, but this big event is heaven. Podium Finish was so much fun because not only did it tell one athletes road to the Olympics, but two.

Harper and Alex are roommates at the Olympic Training Center and they're also best friends. They understand the dedication, sacrifice, and commitment it takes to succeed. I love watching them support one another. Each chapter goes back and forth between the two 17 year old girls and it's told in first person, so we can really understand their feelings and thoughts. I was completely caught up in their stories and felt this was the perfect time to read it--just a few weeks before the Winter Olympics! I'm so excited!

I loved the emotion and learning experiences these girls faced. I loved the relationships they had to figure out and deal with--teams, families, friends, enemies, etc. I even found myself shedding a few tears, although they were tears of joy and pride, I promise. The growth that occurred was perfect for their ages and experiences.

Content: there were a few mild kissing scenes and thoughts of taking things further, but making a choice not

to; there was one situation of a boy and girl in the same bed, but clothed and nothing happened. Clean.

SUCH A FUN READ!

By quibecca

I don't even know where to start. This book came to me right at the right time. I would have loved it anyway, but with the Winter Olympics coming up and being a HUGE Olympics fan, made this book even more exciting to me.

I often wonder what goes through the heads of Olympians as they struggle each day to make the team and this was a little glimpse into that life. Whether it was real or not, it was intense. I cannot even wrap my head around that kind of competition and stress.

I cannot imagine living away from my family to train every day for hours a day knowing that my hard work may or may not pay off. It was an exiting ride from the beginning to the finish.

Figure skating is my FAVORITE Winter Olympic sport so this book made me love it even more. The hard work and dedication it takes to be an Olympian is amazing. I am not a hockey fan, especially women's hockey, but this book made me feel like I was right there watching it go down, and I loved it.

I loved how Harper and Alex found their joy in being in the competition. They lived for it. I could really feel the emotions they were going through while reading this book. I found my self feeling anxious just waiting to hear who made the final cut for the Hockey team. That is how in to this book I was. I LOVE it when an author does that for me.

I don't think there is anything I didn't like about this book. It was exciting, interesting, intense, and had a love story to boot. Seriously a great read. A fun read!

Fantastic book

By Ana

Podium Finish is one of the best books I have read in a very long time. This is a great novel that tells us the story of a group of teenagers training for the Olympic Games. I couldn't put it down once I started reading it. The author did a great job portraying the main characters, Harper and Alex. If you like reading stories about friendship, sports, Olympic Games, family, etc. this is the book for you. It has got everything, funny moments, romantic moments, etc. I can't wait to read more books from Beth Pond.
