Just save the asked for book downloaded and install then you can appreciate guide to read whenever as well as place you really want.

# **SATANISM: A BEGINNER'S GUIDE TO THE RELIGIOUS WORSHIP OF SATAN AND DEMONS VOLUME I: PHILOSOPHY BY BROTHER NERO PDF**

In this, the first book in a new series on Traditional Satanism, Brother Nero, an outspoken advocate of the Devil and His ways for over 20 years, focuses on an area of Satanism that few other authors have discussed in detail: the day to day philosophy and lifestyles of those who sincerely worship the Devil. Many topics usually considered too controversial for print in a book such as this are dealt with in a straightforward, easy to understand manner. Some of the many subjects covered in this book are: \* Raising children in Satanism \* Satanic marriage and sexual relationships \* The nature of Satan and Demons \* Holy Texts of Traditional Satanism \* Al-Jilwah commentary \* Daily prayer \* Solitary practice vs. joining a Coven This book is a series of essays meant to educate those outside of Satanism about the true nature of the people who practice it, as well as to provide a source of inspiration and spiritual guidance to the Satanic community.

Brow-beating at its best!

By Myriad

I was highly anticipating the reading of this book by Brother Nero as a treat to the traditional standards and practices of Satanism. What I received was a lesson in brow beating. While Brother Nero is adamant that modern Satanists take Satanism so seriously as to form relationships with the Dark Father and his minions, he also pontificates that he is perpetually neglected, persecuted, other Satanists are lacking in true Satanic Faith, wishes to annihilate God via worship attrition, all Satanists are egotistical, wondering why all other people don't question themselves whether they are right or wrong yet in the same token believing all the while he is always right, "And I'm going to preach what I believe is the truth."

Reading between the lines however, some light does shine through on his particular brand of Satanism that stands out amongst other Satanic practices. While LaVeyan and Ford practices are symbolic and anthropocentric affording that no one bows before anyone or anything else in reverence, Brother Nero

advocates the physical practice of worshipping Satan as the sole deity and seeing Him as the Greater power than our own which leads one to believe that Brother Nero advocates humility indicative of traditional Christian/Judaic/Islamic traditions. He believes that Satan and his demons are flesh and blood and should be respected as one would respect oneself and in doing, the same will be returned (The Law of Return - reciprocity-) indicative of the Golden Rule (do unto others as you would have them do unto you). His anthropomorphic views on Satan, the demons and yes even God -who is also egotistical and narcissistic- lead one to see into the mind of our Satanic Brother Nero.

All-in-all, only having read just a portion of Brother Nero's work, which is partly a lesson in humility in itself and an eye-opener to alternative possibilities on the worship of the Demonic forces that permeate our everyday lives, leaves me to believe that Brother Nero, while still immature in conversation and argument, has the greatest potential to become an astute strategist in arming his disciples with the mental fortitude and aptitude necessary to become great apostles of the adversary.

I look forward to finishing the reading of Satanism: A Beginner's Guide to the Religious Worship of Satan and Demons Volume 1: Philosophy and future works from Brother Nero as well.

Anything worth doing is worth perfecting.

very good for beginners

By jordan

I would like to say this is one of the few books that touches on traditional/theistic Satanism. There are many books out there on modern Satanism, which makes it hard to find a book that is true in regards to devil worshipping. This book includes all of the basics that any beginner Satanist should know. It is well written.

I gave it 4 stars because:

Pros:

Contains no fluff or extras, you get what you buy

Touches on very important issues: such as sacrifice, prayer, family, and what a Satanist is

Contains commentary on the Al-Jilwah

Good arguments with no loopholes

Written to be easily understood by anyone

Cons:

Lacked a bit in the history of Satanism. Did not talk too much about the origins of Satan, other than from the bible. Should have mentioned some of the ancient religions such as the Sumerians, where IMO Satan originated

Did not talk too much about any of the Satanic holidays and did not go into too much detail of any pagan lore and its influences on Traditional Satanism

Did not cover much on Meditation and Magick

Overall a good read. For a beginner the Cons would not be too important, but someone more advanced may find this book a little too basic.

In closing- If your new to Satanism or interested this is a must buy. If your an experienced Satanist this book wouldn't be a bad purchase, but not required.

This and That

By Wicked

This book was ok, but I found it to have a lot of unrealistic expectations as far as how a Satanist should go about in society and within their daily lives. How this author lacks the open mind of the fact that every path is very unique, and to state in their written works that if one doesn't follow their certain "expectations" then they aren't a Satanist IMO is asinine. Other than that and a few other things this book would be helpful to a novice, but it wouldn't be one of my first choices for reference.
