Review

"This excellent collection of essays by fifteen Anglo-American scholars, edited by the distinguished Orwell scholar, John Rodden...is a genuine companion. The essays are sharp and to the point; never outstay their welcome; and, unlike so much academic writing which seems to be more concerned to address a narrow field of fellow academics, is completely free of jargon. Orwell would have been delighted."

Merely purchase as well as download the soft file of this book The Cambridge Companion To George Orwell (Cambridge Companions To Literature) From Brand: Cambridge University Press

THE CAMBRIDGE COMPANION TO GEORGE ORWELL (CAMBRIDGE COMPANIONS TO LITERATURE) FROM BRAND: CAMBRIDGE UNIVERSITY PRESS PDF

George Orwell is regarded as the greatest political writer in English of the twentieth century. The massive critical literature on Orwell has not only become extremely specialized, and therefore somewhat inaccessible to the nonscholar, but it has also attributed to and even created misconceptions about the man, the writer and his literary legacy. For these reasons, an overview of Orwell's writing and influence is an indispensable resource. Accordingly, this 2007 Companion serves as both an introduction to Orwell's work and furnishes numerous innovative interpretations and fresh critical perspectives on it. Throughout the Companion, which includes chapters dedicated to two of Orwell's major novels, *Nineteen Eighty-Four* and *Animal Farm*, Orwell's work is placed within the context of the political and social climate of the time. His response to the Depression, British imperialism, Stalinism, World War II, and the politics of the British Left are also examined.

Cambridge Companion for Orwell research

By Charlene

This book has been most helpful in researching the works of George Orwell. It is accurate and easy to read. From additional research, I suspect that John Rodden is one of the true experts on analyzing Orwell.

All About Orwell and More

By Howard J. Herskovitz

How interested in Orwell are you? If your interest is merely casual, this book is not for you. If, on the other hand, you consider Orwell the greatest political essayist and satirist of the Twentieth Century, you should read it. Of course, the book should be read after you have read some of Orwell's books and essays and, perhaps a biography.

The Cambridge Companion to George Orwell contains essays by reputable Orwell experts and scholars. These essays discuss Orwell's novels and essays as well as his views on particular subjects. The focus is principally on his political writing and the evolution of his political views. While the writers of this book have different points of view, most agree that Orwell became a socialist in the 1930's and never ceased thereafter to be a socialist. Nevertheless, he was never a Marxist and he often criticized other socialists. It is clear that the view of Orwell, popularized in the United States, as a Socialist who repented is incorrect or, at least, oversimplified.

The book is a surprisingly good read considering the multiple authorship and nature of the series of which it is a part. If you have more than a passing interest in Orwell, this is a must read.
