Absolutely delicious

By Jazzy

The "used" book arrived in pristine condition. Lots of beautiful photos and illustrations for a beginner like myself. Information well layed out with useful charts. I do like having a separate book that has a broader directory of EO's but the most common 60 EO's are covered in this book. The book is easy reading with more than enough to get you started on your way with Aromatherapy.

Love it

By Amazon Customer

I love this book. Covers many aspects of aromatherapy with a good balance of 'readability' and science. The main focus is on massage, but well worth having in your collection if you are an aromatherapy enthusiast.
