This book makes so much sense!

By Rebekah B

"Anyone can do what you do. Nobody can copy who you are."

No truer words were spoken! In a time when there's nothing new under the sun and it's all been done before, the only way to stand out is to be yourself. Because all of your circumstances and experiences work together to make you who you are and NO ONE can come close to that. If you're a photographer or even just an entrepreneur of any sort, then you NEED to read this book. Learning to distinguish yourself from the crowd will make your business thrive and celebrate longevity. I'm just getting started on this road to specialism and already I feel better about where I'm going. All because I'm being authentic to myself. I can't wait to see where this journey (and Jeff) takes me! This book will change your life.

Can't stop thinking about this book

By Autumn

I got this book as a PDF when it first came out, but did not read it until I had the hard copy in my hands. I devoured it in a weekend, taking notes, thinking, re-reading, thinking some more...this book is great to really make you think about your WHY and WHO...being YOUUniquely you. It's all I can think about, pinpointing down why I do things, who am I, who do people see etc. It's definitely a must have. I highly recommend it to anyone looking to be better in their business and in their personal life.
